SUMMARY

Computer Science Graduate from **College of Computing and Information Technology** at the Arab Academy for Science, Technology, and Maritime Transport. A passionate, highly dedicated, and hardworking individual with strong academic performance and extensive hands-on project experience. Motivated to gain professional industry exposure and further develop expertise in Web Development, Software Engineering, and UI/UX Design.

EDUCATION

College of Computing and Information Technology, Arab Academy for Science, Technology and Maritime Transport	2022 – 2026
Bachelor of Computer Science (Dual Degree with University of Northampton, UK)	
Transcript available upon request	
Alexandria House of English, Alexandria, Egypt	Graduated 2022
Cambridge Assessment International Education	

KEY SKILLS

- Programming Languages:** Java, C, Python, Shell, SQL, Kotlin
- Web Development:** HTML, CSS, PHP, JavaScript
- Tools & Frameworks:** JavaFX, Figma, Android Studio, Firebase, Packet Tracer, Microsoft Suite, Unity, GitHub
- Soft Skills:** Teamwork, Leadership, Problem-solving, Self motivated

EXPERIENCE

USAL Summer Course – AI, Cybersecurity & Communication	July 2025
University of Salamanca, Spain	
Attended expert-led sessions on Generative AI, AI Research Trends, and Cybersecurity Strategies, with workshops by <i>INCIBE</i> (The National Cybersecurity Institute of Spain).	
Training - Temenos T24 Team, EJADA Egypt	August 2025
Explored Temenos T24 core banking modules, Java Integration, SQL, and DevOps tools	
ICTHub Python Programming Scholarship	April 2025
Merit-based training covering Python fundamentals through structures exercises and projects	
Training – Integrated Simulators Complex, AAST	July 2024
Gained hands-on experience with advances maritime simulation technologies	

University Projects

- Graduation Project: Seizure Detection & Prediction System (Flutter, Kotlin/Wear OS, CNN-LSTM, TorchScript, Supabase)** – AI-powered health system using smartwatch sensor data for real-time seizure detection, with mobile and cloud integration
- Career AI Agent (n8n)** – Automated workflow that collects user info via text or voice, generates a tailored CV, and scrapes job listing based on skills and experience
- Fitness App (Java, JavaFX)** – Desktop app with BMI calculator, daily tracking, and separate admin/user flows.
- Notes App (Kotlin, Android Studio)** – Native Android notes app with Material Design supporting creating, editing, import, and export.
